WOMEN EMPOWERMENT

→ Women Empowerment refers to making women powerful to make them capable of deciding for themselves. Women have suffered a lot through the years at the hands of men. In earlier centuries, they have been treated as almost non-existent. As if all the rights belonged to men even something as basic as voting. As the times evolved, women realized their power. There on began a revolution for women empowerment.

As women were not allowed to make decision for them, women breath of fresh air, It made them aware of their rights & how they must make their own place in society rather than depending on a man. It recognized the fact that things cannot simply work in someone's favor because
